We doubt if the Pan Handle ever had a better crop, counting both quantity and quality. The question is: Where is a profitable market to b found for it all? The news from Europe indicates a good crop over there, although, owing to last year's deficiencies, they will still need heavy shipments from America. These shipments are now going on quite freely. The exports of breadstuffs from the United States during the month of May were valued at \$19,749,450, against \$17, 158 464 in May, 1879. Although our exports last fall were such as would lead to the idea that the surplus grain supply of the West had been exhausted, the principal freight business of the Baltimore and Ohio Railroad at the present time is car rying grain to Atlantic seaports for foreign nent. statesman has been such, particularly in reference to the National finances, as to commend him to their favor. Probably many of the German editors are not aware that General Garfield is an accomplished German scholar, but such is the fact. No public man in the United States has a higher appreciation of the Germans as a people than General Garfield. In his Speech delivered February 17, 1879, in the House of Representatives on the character of the deceased Gustava Schlaicheau Dakota. of the deceased Gustave Schleicher, member from Texas, be said:

"We are accustomed to say, and we have heard to-night, that he was born on foreign soil. In one sense that is true; and yet in a very proper historic sense he Burke was arrested,

was born in our fatherland. One of the ablest of recent historians begins his opening volume with the declaration that England is not the fatherland of the English speaking people, but that the real ancient home, the real fatherland of our race, is the ancient forest of Germany. The same thought was suggested by Montesquieu long ago, when he declared in his Spirit of the Laws, that the British Constitution came out of the voods of Germany.

"To this day the Teutonic races maintain the same noble traits that Tacitus describes in his admirable history of the manners and character of the Germans. We may therefore say that the friend whose memory we honor here to-night is one of the elder brethren of our race. He came to America direct from our fatherland, and not, like our own fathers, by the way of England."

pecial Correspondence of the Intelligencer. Common Pleas Court opened this morning with the trial of criminal cases; that of George Burke being set for to-day, for burglary. George has served one term in the penitentiary for burglary and just got home last April. He had not been home long before he kicked in the window of Odbert's shoe store on South Fourth street and abstracted therefrom several pairs of

For to-morrow the trial of The State vs Davidson, for burglary, isset. Young David-Davidson, for burglary, isset. Young Davidson's crime consists in going through Judge Miller's residence and taking therefrom considerable jewelry, which he afterward traded off to an inmate of a bawdy house. On Wednesday the case of the State vs. Harry Rothwell will be heard. Rothwell's crime is burglary, he having entered the house of Mrs. John Kendall on South Seventh street, and purioined a suit of clothes belonging to Frank Kendall. This was about a year ago, but Rothwell escaped from the county jail along with a set of burglars, who were tollowing Barnum's circus last year, and who operated on Mendel's house in Wheeling, and in Doyle's in thiscity. Rothwell was recaptured and will likely get a chance to board some time longer at the expense of the State.

On Thursday the ease of W. C. Ong, exProsecuting Attorney of Jefferson county
vs. County Commissioners, a suit to recover \$200 for legal service in the pike
case, will be heard, and on Friday the
case of an individual called "Buffalo Bill"
vs. Jas. Carter, of Smithfield, to recover
\$10,000 damages for injuries resulting
from being kicked by Carter's horse, at

The delegation, numbering about twenty-five of the "unwashed" from this ci y to
the Cincinnati Convention, got off this
morning at 1:20, under the leadership of
H. H. McFadden, senior editor of the Gazette. Daniel McConville, who left late
last week for Cincinnati, is a delegate-atlarge, and has a sort of a leaning toward
the Standard Oil Company's candidate—
Fayne, of Cleveland. One of the braves
who had intended taking in the Convention, did not get off, having been put on a
jury. His name is W. C.

The Jefferson Iron Works are shut down for this week, but will probably re-sume operation next week. The heaters are not off.

It is rumored that Polk Owens, of this city, was killed by the cars at Chicago, but we can find nothing conclusive on the subject, as part of his relations say a dis-patch was received to that effect, and oth-

patch was received to that effect, and others say no dispatch was received at all.

In the case of the State vs. George Burke, for burglary, arguments were concluded this evening and the jury retired at about 8 o'clock, and after remaining out for an hour and a quarter, returned a verdict of guilty. A motion was made to set aside the verdict which was taken under consideration by the court.

We were shown some glass-ware this morning, blown by Messrs. Joe Bratahaw, of Detroit, Michigan, and John Blankensop, sr., atthe Riverside Glass Works. The former gentleman had not worked any in glass for forty-seven years, yet he has not forgotten how to handle the tools, or how to shape his work. The specimens are very fine. Uncle Jack has also been off the glass works many years, but in like manner retains his knowledge of the craft. ner retains his knowledge of the craft. G. B. C.
